AT FLINDERS IT'S

ALL ABOUT YOU

CHOOSE YOUR DEGREE

From medicine to business, science or arts offerings, Flinders University offers more than 500 undergraduate, postgraduate and research degrees taught by global and national experts focused on the experience and outcomes of their students.

BE TAUGHT BY LEADERS

At Flinders, you'll be taught by teachers who are leaders in their fields. They are plugged into industry trends and connected to professional networks. Your future career will take practical shape from the very beginning of your studies as we guide you from the classroom to the workplace through inspired teaching, practical placements, internships, field education and industry projects.

BENEFIT FROM WORLD-CLASS RESEARCH

Flinders University's research strengths include biomedical and clinical sciences, culture, policy and society, health and medicine, mental health and human behaviour, molecular science and technology, defence, engineering, water and environment. With 90% of Flinders' research rated world-standard or above,* your studies will be supported by the up-to-the-minute knowledge of highly skilled researchers and lecturers.

*Flinders rating 89.7%, rounded up to 90%. Excellence in Research for Australia, 2018

GET THE SUPPORT YOU NEED

Flinders is SA's No.1 university for student support.** From campus facilities to financial support, mental health and wellbeing resources and services, student grants, counselling services (including careers and financial) and many social opportunities, we offer a range of services to ensure your study experience is everything you want it to be. Find out more about student support on page 49.

**The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

EXPERIENCE A UNIVERSITY LIKE NO OTHER

Our geographic footprint stretches from the top of the Northern Territory through to South Australia and regional Victoria. Internationally, joint courses are delivered with leading universities in China, Hong Kong, Malaysia, Singapore and Indonesia. Our main campus at Bedford Park is an environment that fosters creativity. Sitting in stunning natural surrounds, it boasts spectacular views to the city and coast and features an award-winning, state-of-the-art student hub that fosters interactive learning in a digitally enabled environment.

JOIN A GLOBAL COMMUNITY

Flinders University graduates are enterprising, innovative and curious thought leaders in over 120 countries around the world. When you graduate from Flinders, you'll not only join over 106,000 graduates from an amazing variety of fields, you'll graduate from SA's No. 1 university for starting salary.**

**The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

GAIN REAL-WORLD EXPERIENCE

Flinders Work Integrated Learning (WIL) enables you to gain work experience while you study. You'll have the opportunity to gain real-world experience through placements, practicums, field studies, and simulated workplace settings and assessment activities. Flinders aims to provide each and every student with access to a WIL opportunity during their studies.

THINK BIG. MAKE AN IMPACT. DESIGN YOUR FUTURE.

Careers are evolving and the workplace of the future will look very different from today. Powered by Flinders' New Venture Institute, our suite of innovation and enterprise electives and courses will help you to develop the 'personal enterprise skills' that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally. No matter what you choose to study at Flinders, you can embed an innovation and enterprise elective into your degree.

TAKE YOUR STUDIES OVERSEAS

Why wait until you graduate to explore the world? Flinders' Learn Without Borders could see you studying overseas, gaining a unique perspective and immersing yourself in a different culture, language and lifestyle.

"My exchange was honestly one of the most amazing and rewarding six months of my life. The friends I made, the things I saw and experienced will stick with me for the rest of my life."

Rebekah Jones
Canada

EXPLORE FLINDERS SCHOLARSHIPS

Flinders offers a generous range of scholarships for students in undergraduate courses. With over 550 available scholarships, including scholarships to students from low socio-economic backgrounds, students from rural and regional areas and Indigenous students, you may be eligible for support that will help you achieve your goals at university.

"The Wyndham Richardson Scholarship Fund has been invaluable to reduce the financial pressure during studies, especially now that I am in the later years of my degree."

Ryan Rowston, Bachelor of Computer Science
Wyndham Richardson Scholarship Fund

FLINDERS VILLAGE

\$1.5 billion development

Centred around the new Flinders Train Station (due to open early 2021) and directly connecting the University's main campus to its Tonsley innovation precinct and the Adelaide city centre, the \$1.5 billion Flinders Village development will create a campus environment which merges university life with the wider community.

Flinders Village will feature student accommodation, an advanced health research facility, transitional health accommodation, a hotel, and amenities such as retail facilities, benefitting students, staff and the community.

Community-centred student living

Flinders Station links Bedford Park to Tonsley and the city

OVER 40 YEARS OF EFFECTING POSITIVE
CHANGE IN THE LIVES OF OTHERS

HEALTH

LEADERS IN HEALTH AND CARE

STUDY HEALTH AT FLINDERS

A global focus on the importance of health has led to a growing demand for skilled professionals who can teach us to live healthier lives.

Flinders can help you become one of those professionals.

With over 40 years' experience in disability, speech pathology, nutrition and dietetics education, and over 20 years' experience in audiology, palliative care and health sciences, Flinders is a leader in health education.

STUDY WITH LEADERS

Flinders University has a reputation for excellence in teaching, learning and research that spreads across the globe. Learn from the brightest minds in health research who will bring you the latest knowledge and skills, and prepare you for the future of health.

A REWARDING CAREER

Start a career that is rewarding in many ways. Not only will you help others, you could be well rewarded. Health care and social assistance are Australia's fastest growing industries* and Flinders' graduates enjoy a median salary above the national average.**

*Australian Jobs 2019

**OILT Graduate Outcomes Survey 2016-2018 (undergraduate)

Study for success

Flinders programs are professionally accredited and globally recognised. We are the only university in South Australia with an on-campus teaching hospital. By studying at Flinders, you'll graduate job-ready.

No. 1 in SA

in Health Services & Support for full-time employment, median salary and learner engagement

The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

Bachelor of Disability and Developmental Education

You could help shape an inclusive society, improve lives and assist others to realise their potential and live independently.

Your studies could lead you to an amazing career helping others live rich, fulfilling lives. You'll gain the skills and knowledge to provide services for people of all ages with diverse needs, including developmental and acquired disabilities. On graduation, you'll be qualified to work in a range of disability and related health and human services positions.

- Your studies will build foundation skills to support people with disability using therapeutic supports, advocating for and building an inclusive community.
- You'll be exposed to psychology, philosophy, speech pathology, sociology, health and special education.
- You'll be able to take advantage of interstate or overseas placement opportunities from your second year.
- The Bachelor of Disability and Developmental Education is accredited by Developmental Educators Australia Inc for practice as a developmental educator.

CAREER OPPORTUNITIES

Either degree could open up a range of employment opportunities, including:

- developmental educator
- NDIS professional planner/ support coordinator
- disability employment consultant
- family/behavioural support coordinator
- positive behaviour support specialist.

Potential employers include:

- disability support services
- government sector/NDIS
- non-government agencies
- private sector
- self-employment.

Bachelor of Education (Secondary)/Bachelor of Health Sciences

Enhance your secondary teaching with a health sciences specialisation, including a major in physical education.

Take your interest in a healthy lifestyle into the classroom. This degree will give you the knowledge and skills required to register as a PE teacher in secondary school. The course is taken as a double degree with a Bachelor of Health Sciences, providing core health sciences topics and a choice from one of two specialisation options. This is your chance to use your passions to help others. A long-term career in secondary school teaching is challenging and rewarding.

* Teaching Capabilities Statement. This is a requirement of the Australian Institute for Teaching and School Leadership (AITSL) and supports the national priority to ensure those entering the teaching profession have the personal qualities to best support learners and graduate as classroom-ready, high-quality teachers.

See the inside back spread for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

- You'll earn a double degree in only four years that includes an education degree with a health sciences degree.
- Your course program includes two specialisation options, one in physical education or one in health education.
- You can undertake professional experience placements in secondary schools where you can learn practical skills and put theory into practice.
- Your placements will help you to develop and consolidate your teaching knowledge and skills in order to meet the necessary national standards for registration as a teacher.
- You'll be taught vital interpersonal skills that will help you form cooperative and effective professional relationships with students, staff and parents.
- Upon successful completion, you will be eligible to apply for registration with the Teachers Registration Board of South Australia.

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:

- secondary teacher
- graduate administrative officer
- youth and children's support officer.

Potential employers include:

- secondary schools
- government schools
- independent schools
- government education departments.

Bachelor of Exercise Science

Drive health and wellbeing, and build a career improving lives through fitness.

Exercise Science and Exercise Physiology is a fast-growing sector with a multidisciplinary approach to chronic disease management, treatment, and prevention as well as the maximisation of sporting performance, injury prevention and community health

Bachelor of Exercise Science

* Knowledge of SACE stage two biology or equivalent is assumed.

See the inside back cover for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

- You'll undertake unique topics in the fundamentals of exercise science, exercise prescription in motor control and learning, and advanced exercise science.
- You can choose from specialisations in health promotion, behavioural sciences, sports science, business, or allied health, preparing you for a range of allied health postgraduate degrees.
- You'll take on practical experience that prepares you for the workforce, including a 140-hour placement that will prepare you with skills and knowledge applicable to careers in health, sport and exercise fields.
- There are opportunities to take your studies overseas as part of your practicum.

CAREER OPPORTUNITIES

Your degree is the first step towards a range of employment opportunities, including:

- exercise scientist
- exercise physiologist
- health and injury prevention advisor
- aged care health and wellness
- health and wellness coordinator
- cardiac technician
- sport and exercise science support officer
- active living project officer.

Potential employers include:

- hospitals
- community health units
- workplaces
- gymnasiums
- aged care facilities
- disability service organisations
- sporting clubs and associations
- private health clinics
- return to work providers
- schools, universities and TAFE
- sporting academies
- not-for-profit or community organisations.

Bachelor of Exercise Science/Master of Clinical Exercise Physiology

Accelerate your career with this pathway to a masters in clinical exercise physiology.

If you're a high-achieving student, you can progress from an exercise science degree to a masters degree through this five-year degree combination. You'll study unique topics in the fundamentals of exercise science, exercise prescription in motor control and learning, and advanced exercise science. You'll learn from leading strength and conditioning professionals from organisations such as the Adelaide Crows, Port Adelaide Power and GWS Giants AFL Clubs, Adelaide Thunderbirds, Basketball SA and the Australian Institute of Sport.

See inside back cover for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

This specialised degree provides exciting options for students interested in a wide range of careers in the medical and health sciences, and emphasises the fundamental sciences that underpin virtually all fields of medical science.

You'll study areas such as biochemistry, biotechnology, microbiology, molecular biology and neuroscience, and gain skills that could see you move into a wide range of careers.

You'll study in state-of-the-art research facilities.

Choose topics from both biological sciences and medicine to combine a solid understanding of the human body with the laboratory skills for medical science.

You'll be immersed in a strong clinical and research environment, and undertake laboratory practicals and experiments to prepare you for work as a medical scientist.

CAREER OPPORTUNITIES
Your degree is the first step towards a range of employment opportunities, including:

- bone densitometry technician
- cardiac physiologist
- medical laboratory technician
- medical scientist
- research and development scientist.

Potential employers include:

- Clinpath Laboratories
- CSIRO
- GlaxoSmithKline
- Peter MacCallum Cancer Centre
- Department of Health.

SATAC CODE 244361

3 **PT** **D**

The future of health is digital. Be a part of the change and explore how digital health and technology is revolutionising health and care. Embrace the digital disruption and get ahead of the rest.

Bachelor of Health Sciences (Physiology and Neuroscience)

SATAC CODE 244371

3 **PT** **D**

Gain a well-grounded knowledge of the nervous system, and study how our brain and body functions.

Bachelor of Health Sciences (Psychology)

SATAC CODE 244381

3 **PT** **D**

Gain an insight into the way mental processes impact human behaviour, and the importance of mental health and wellbeing.

Bachelor of Health Sciences (Therapy Studies)

SATAC CODE 244391

3 **PT** **D**

Develop a detailed knowledge of anatomy and physiology through specialisation topics in Therapy Studies, providing a strong foundation for future endeavours in a range of traditional and emerging therapy areas.

This specialisation meets the pre-requisites to apply for post-graduate studies in established fields in Allied Health including Occupational Therapy and Physiotherapy.

Bachelor of Public Health

SATAC CODE 244341

3 **PT** **D**

There has never been a better time to study public health. Graduates are in demand to address health challenges of local, national and global significance to deliver outcomes that benefit the population. Follow your passion, choosing distinctive learning pathways from bio-medical, research, and social determinants of population health and equity, to Indigenous health, economic factors, and global approaches to health issues, such as obesity and heart disease.

All Health Sciences specialisations offer placements in a wide range of health-related industries and settings. You can work within a health, community, or research setting to develop and enhance your work-ready skills.

Combined degrees

By combining your degree with a qualification in another discipline, you'll connect diverse knowledge in unique ways and develop specialised abilities to help you stand out from the pack. Studying a combined degree at Flinders is the key to enhancing your career opportunities.

Example degree combinations

Bachelor of Health Sciences/Bachelor of Business (Human Resource Management)

SATAC CODE 214182

Gain an excellent grounding in all aspects of the health sector and learn how to employ your skills to pursue a specialist career in human resource management.

Bachelor of Exercise Science/Bachelor of Human Nutrition

SATAC CODE 234552

Combine your passions for healthy eating and exercise to develop skills that will help people improve their health.

For a full list of combined degree options visit flinders.edu.au/combineddegrees

PATHWAYS TO STUDY

Whether you are a school leaver or returning to study at a later date, there are many ways to gain admission to Flinders University. Explore your options and find the entry path that's right for you.

If you have recent secondary education

Year 12 Entry

Most Year 12 applicants enter university via the traditional entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course and is based on your ATAR plus any adjustment factors for which you are eligible.

Elite Athlete Pathway

If you've officially represented your school or state at a national level competition, we'll consider your school's recommendation about your academic potential when you apply.

Research Project B Pathway

If you have strong results in the Research Project B subject you will be considered for entry into Flinders on the basis of your Year 12 results and Research Project B performance.

uniTEST

If you're in Year 12, uniTEST may enhance your chances of getting into Flinders. We will select students based on Year 12 results and uniTEST performance.

If you have some higher education

Tertiary Transfer

If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).

If you have vocational education and training (VET)

TAFELink

Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VET certificate IV or higher-level qualification, as long as degree prerequisites are met.

TAFE SA Dual Offers

Flinders University together with TAFE SA offer over 45 dual offer pathways in various disciplines.

Adult Entry

The adult entry scheme enables people aged 18 years and over to apply to study at Flinders via the Special Tertiary Admissions Test (STAT). Applications are made via SATAC.

If you have work and life experience

Foundation Studies

The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

Military Pathways

Use your military service in the Australian Defence Force as a pathway to a Flinders University degree.

Special Tertiary Admissions Test (STAT)

Adult entry to university via the Special Tertiary Admissions Test (STAT) assesses your ability to study at a tertiary level.

A pathway to all degrees

Bachelor of General Studies

Begin your journey to a successful career. Flinders' Bachelor of General Studies is a flexible degree designed to prepare you with communication skills, a firm grasp of ethics and the confidence to make connections across geographical, disciplinary, social and cultural boundaries.
