AT FLINDERS IT'S

ALL ABOUT YOU

CHOOSE YOUR DEGREE

From medicine to business, science or arts offerings, Flinders University offers more than 500 undergraduate, postgraduate and research degrees taught by global and national experts focused on the experience and outcomes of their students.

BE TAUGHT BY LEADERS

At Flinders, you'll be taught by teachers who are leaders in their fields. They are plugged into industry trends and connected to professional networks. Your future career will take practical shape from the very beginning of your studies as we guide you from the classroom to the workplace through inspired teaching, practical placements, internships, field education and industry projects.

BENEFIT FROM WORLD-CLASS RESEARCH

Flinders University's research strengths include biomedical and clinical sciences, culture, policy and society, health and medicine, mental health and human behaviour, molecular science and technology, defence, engineering, water and environment. With 90% of Flinders' research rated world-standard or above,* your studies will be supported by the up-to-the-minute knowledge of highly skilled researchers and lecturers.

*Flinders rating 89.7%, rounded up to 90%. Excellence in Research for Australia, 2018

GET THE SUPPORT YOU NEED

Flinders is SA's No.1 university for student support.** From campus facilities to financial support, mental health and wellbeing resources and services, student grants, counselling services (including careers and financial) and many social opportunities, we offer a range of services to ensure your study experience is everything you want it to be. Find out more about student support on page 49.

**The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

EXPERIENCE A UNIVERSITY LIKE NO OTHER

Our geographic footprint stretches from the top of the Northern Territory through to South Australia and regional Victoria. Internationally, joint courses are delivered with leading universities in China, Hong Kong, Malaysia, Singapore and Indonesia. Our main campus at Bedford Park is an environment that fosters creativity. Sitting in stunning natural surrounds, it boasts spectacular views to the city and coast and features an award-winning, state-of-the-art student hub that fosters interactive learning in a digitally enabled environment.

JOIN A GLOBAL COMMUNITY

Flinders University graduates are enterprising, innovative and curious thought leaders in over 120 countries around the world. When you graduate from Flinders, you'll not only join over 106,000 graduates from an amazing variety of fields, you'll graduate from SA's No. 1 university for starting salary.**

**The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

GAIN REAL-WORLD EXPERIENCE

Flinders Work Integrated Learning (WIL) enables you to gain work experience while you study. You'll have the opportunity to gain real-world experience through placements, practicums, field studies, and simulated workplace settings and assessment activities. Flinders aims to provide each and every student with access to a WIL opportunity during their studies.

THINK BIG. MAKE AN IMPACT. DESIGN YOUR FUTURE.

Careers are evolving and the workplace of the future will look very different from today. Powered by Flinders' New Venture Institute, our suite of innovation and enterprise electives and courses will help you to develop the 'personal enterprise skills' that employers are looking for, and equip you with the ability to adapt to whatever life throws at you, personally and professionally. No matter what you choose to study at Flinders, you can embed an innovation and enterprise elective into your degree.

TAKE YOUR STUDIES OVERSEAS

Why wait until you graduate to explore the world? Flinders' Learn Without Borders could see you studying overseas, gaining a unique perspective and immersing yourself in a different culture, language and lifestyle.

"My exchange was honestly one of the most amazing and rewarding six months of my life. The friends I made, the things I saw and experienced will stick with me for the rest of my life."

Rebekah Jones
Canada

EXPLORE FLINDERS SCHOLARSHIPS

Flinders offers a generous range of scholarships for students in undergraduate courses. With over 550 available scholarships, including scholarships to students from low socio-economic backgrounds, students from rural and regional areas and Indigenous students, you may be eligible for support that will help you achieve your goals at university.

"The Wyndham Richardson Scholarship Fund has been invaluable to reduce the financial pressure during studies, especially now that I am in the later years of my degree."

Ryan Rowston, Bachelor of Computer Science
Wyndham Richardson Scholarship Fund

FLINDERS VILLAGE

\$1.5 billion development

Centred around the new Flinders Train Station (due to open early 2021) and directly connecting the University's main campus to its Tonsley innovation precinct and the Adelaide city centre, the \$1.5 billion Flinders Village development will create a campus environment which merges university life with the wider community.

Flinders Village will feature student accommodation, an advanced health research facility, transitional health accommodation, a hotel, and amenities such as retail facilities, benefitting students, staff and the community.

Community-centred student living

Flinders Station links Bedford Park to Tonsley and the city

BUILD THE SKILLS THAT
EMPLOYERS ARE SEEKING

HUMANITIES & SOCIAL SCIENCES

GET SET FOR LIFE

STUDY HUMANITIES & SOCIAL SCIENCES AT FLINDERS

Imagine designing a career around your passions. Imagine following your dreams and learning more about what you love. This could be the beginning of an amazing adventure.

CREATE YOUR OWN FUTURE

Study what you love and work towards a career you'll love. The workplaces of tomorrow are likely to be very different from those we see today. But one thing is unlikely to change: employers will be searching for independently minded people with valuable, transferable skills. A Humanities and Social Sciences degree from Flinders will give you the knowledge and skills you'll require in tomorrow's workplace.

A REWARDING CAREER

From a career in education or archaeology to a future in law or science, humanities and social sciences offer a wide variety of career paths. Flinders' links to industry will help you gain highly desirable, practical experience, and the flexibility inherent in your study options will allow you to focus on a career in an area that truly interests you.

STUDY FOR SUCCESS

Flinders has a long history of producing high quality, successful graduates. Our Humanities and Social Sciences graduates are talented leaders in creative arts, business, politics and government. When you study at Flinders, you'll be taught by teachers who have international reputations for excellence. They are plugged into industry trends and connected to professional networks, helping you graduate ready to pursue an exciting career.

No.1 in SA

in Humanities, Culture & Social Sciences for full-time employment, starting salary and overall quality of educational experience

The Good Universities Guide 2020 (undergraduate), public SA-founded universities only

Bachelor of Archaeology

Your future career lies in the past.

This course prepares you for a professional career in archaeology or related areas, making you suitable for jobs throughout the globe in research, policy development, consulting, laboratory research, hands-on surveying and excavation.

South Australia's only Bachelor of Archaeology degree will prepare you for a wide range of jobs in museums, government, community organisations and the cultural heritage management industry.

Get your hands dirty, and delve into the world's rich cultural history, uncovering the links between past, present and future societies.

Bachelor of Archaeology

<div><div>3</div><div>PT</div><div>D</div></div>

- archaeologist
- assistant curator
- cultural heritage officer
- cultural ranger
- education and interpretation officer.

Potential employers include:

- independent archaeological consultants
- heritage agencies
- museums
- academic institutions
- public service
- wildlife services.

“The best thing about studying archaeology at Flinders would have to be the teaching staff – right from my very first lecture when we were all told that it was their aim for every single student to graduate and support us along the way. Throughout every different topic thereafter, I have always felt supported and encouraged, and have never felt like just a number.”

Megan Green,
Bachelor of Archaeology

“Flinders was the perfect choice for me as it really allowed me to pursue my interests and study in a friendly and productive environment. Flinders stands out to me from other universities because of the diversity in topics they offer as well as the tightknit and welcoming community within the college.”

Yianni Cartledge
Bachelor of Arts (History)/Bachelor of Education

Bachelor of Arts

Join the change makers and prepare to solve global challenges.

Bachelor of Arts graduates understand that to thrive in tomorrow's workplace, you must develop the skills and knowledge to adapt and take advantage of new opportunities. This degree will prepare you for a career in almost any field, with a richly diverse suite of subject areas, as well as a uniquely-focused set of core topics that will help you prepare for the challenging social transformations that the world is going through right now.

- arts centres
- museums
- advertising agencies
- international cultural organisations.

ARTS

The following study areas can be taken as a major or minor:

Applied linguistics

Applied linguistics is concerned with the practical issues of language such as learning and teaching, policy, multilingualism, cross-cultural communication, maintaining languages, and language difficulties.

Archaeology

A major in archaeology makes sense of the world by identifying connections between fossil remains of past ancestors, artefacts and material culture once used by past societies, and particular cultural and natural environments.

Creative writing

Creative writing develops the creative, practical, critical and collaborative skills necessary to pursue a career in the communication, arts and related creative industries.

Criminology

Criminology explores who commits crime and critiques how the criminal justice system responds to crime.

Drama

Drama offers grounding in the theories of theatre and performance workshops in movement, voice, improvisation and Stanislavskian techniques.

English

English encourages a knowledge of and enthusiasm for literature and fosters effective communication skills critical in the workplace today.

French

French is spoken in more than 40 countries, including some of Australia's closest neighbours, and is one of the most widely taught second languages in the world.

Geography and Environmental Studies

Together, geography and environmental studies explore dynamic relationships between people places, and the so-called 'natural' and built environments we shape.

History

History introduces issues that have shaped and continue to influence the modern world, such as revolution, fascism, migration, population, warfare and globalisation.

Indigenous and Australian Studies

The Indigenous and Australian Studies major offers thought-provoking and challenging insights into Indigenous and non-Indigenous contemporary contexts.

Innovation and enterprise

Innovation and enterprise provides you with the skills to enhance your creativity, understand and embrace innovation and think like an entrepreneur.

International relations

International relations studies global issues such as diplomacy, foreign policy, the military, human rights, economies, trade and international organisations.

Italian

Italy is one of the wealthiest nations in the world, an essential tourist destination and a major trading partner with Australia. Italian language is a pathway to employment.

Law and society

Law and society equips you with practical legal and analytical skills valuable in many industries including social work, policing, legal services, research and policy positions.

Modern Greek

The study of Modern Greek language and culture provides the key to understanding the importance of the Hellenic tradition in western intellectual development.

Philosophy

Philosophy deals with some of the big questions about the world, society and ourselves, and encourages thought and discussion by presenting a range of possible answers.

Politics

Politics encompasses how groups of people conduct and understand their public life together. Politics is the study of public life in Australia and the rest of the world.

Psychology

Psychology is the study of human behaviour and experience including how we learn and develop, personality and self-esteem, thinking processes and psychological problems.

Screen and media

Screen and media involves the study and analysis of a wide range of screen-based media including film, television, computer games and online media.

Sociology

Sociology studies the social institutions and processes of contemporary society, linking the way individuals form identities against the backdrop of society and the construction of culture.

Spanish

Spanish is one of the three most widely spoken languages in the world, one of six official languages of the UN and an important trading language in the Asia-Pacific.

Theology

Theology investigates Christian traditions, texts and practice through study in fields such as biblical studies, historic and systematic theology, and ministry studies.

Visual arts

Visual arts provides the technical, aesthetic and cultural skills to understand and work in the arts and cultural sectors and related fields.

Women's and gender studies

Women's and gender studies addresses the broad questions of gender in contemporary life and historically, in Australia and globally, and how to change gendered relations of power.

Minors

The following areas are available as minors only in the BA: Information technology, International affairs, Mathematics, Professional studies, Sciences.

Bachelor of Arts and Science

Your career could cover science and the arts.

Flinders University arts and science graduates have a vast body of knowledge across arts and the sciences that prepares them for a wide range of careers. You'll learn adaptable and analytical skills, including the ability to think creatively and solve problems.

With majors available from creative arts, humanities, law, science, mathematics, computing, and social and behavioural sciences, you'll graduate ready to take on the world.

See the inside back spread for more information on your admission pathways, opportunities to enhance your degree, and how to apply.

- This degree allows you to study both arts and science without having to complete a double degree.
- You'll be able to build a degree that suits your interests and career aspirations.
- Develop transferable skills highly valued in a wide range of jobs and industries.
- Select an arts and science major from over 40 disciplines.
- Develop skills in hard science with a deeper appreciation of the role of science in society.
- Undertake a professional placement in your final year.
- Develop hands-on skills through project-based learning including live industry projects.
- Get the communication skills to complement your skills in science and connect them to the world.
- Gain versatile and adaptable vocational skills that are very attractive to employers.

CAREER OPPORTUNITIES

Your degree will give you a range of employment opportunities, including:

- communications and customer service officer
- policy project officer
- scientific officer
- community education officer
- science management assistant.

Potential employers include:

- government departments
- community arts centres
- education/higher education
- media
- marketing organisations.

ARTS AND SCIENCE

In addition to choosing an arts major, the following science majors can also be taken:

Animal biology

The animal biology major involves the biology of animals, including their classification, molecular and chemical structures, evolution, physiology, ecology and biodiversity.

Aquatic biology

Aquatic biology involves the biology of marine and freshwater aquatic life: from mammals, birds and reptiles to plants and algae.

Biochemistry and molecular biology

The biochemistry and molecular biology major explores the very building blocks of life: from chemical structures and bonding to proteins and DNA.

Chemistry

Chemistry affects almost everything we do or use: from drugs, antibiotics and anaesthetics to polymers and plastics to synthetic fibres and batteries.

Cognitive science

Cognitive science is the scientific study of the mind and its processes in both humans and machines, including intelligence and behaviour, perception, language, memory, attention, reasoning and emotion.

Computer science

The computer science major provides you with a broad background in programming, databases, networks and computer systems, enabling you to develop technical expertise in computers and their application.

Ecology and evolutionary biology

The ecology and evolutionary biology major introduces you to the study of living animals, plants and fungi, how they interact, and their role in the complex ecology of life in communities.

Environmental geology

Environmental geology applies geology or geoscience to our living environment. The environmental geology major examines how geological processes and hazards influence human activities and vice versa.

Environmental hydrology and water resources

The environmental hydrology and water resources major is about solving a diverse range of environmental and water problems. It gives you a broad background in natural sciences including earth sciences, environmental sciences and marine sciences.

Environmental management

Environmental management is the management of our impact on the environment. The environmental management major aims to prepare you with an understanding of the complexity and contexts of environmental decision-making.

Geography

The geography major provides a broad foundation in geography. It involves investigating the dynamic relationships between humans and their cultures and environments.

Mathematics

The mathematics major provides a firm foundation in the basic principles and techniques of modern mathematics, and an understanding of how mathematics is applied in the social and natural sciences.

Microbiology

Microbiology is the study of microscopic organisms: from viruses and bacteria to parasites and fungi. The microbiology major involves the study of evolution, biodiversity, chemistry, biostatistics and immunology.

Ocean and climate sciences

The ocean and climate sciences major provides you with a deeper understanding of the physical processes shaping the marine environment and influencing climate.

Plant biology

The plant biology major involves study in areas such as Australian environmental change, diversity of plants and algae, animal and plant physiology, conservation biology and restoration ecology, and food biotechnology.

Physics

The physics major provides an understanding of the fundamental laws of nature. You will develop an understanding of the broad spectrum of known phenomena from classic and modern science, and explore the frontiers of modern science.

Statistics

The statistics major involves the use of mathematics, data science, biostatistics, probability and stochastic processes to analyse and solve complex statistical problems.

Vertebrae palaeontology

The vertebrae palaeontology major involves studying the fossils of extinct vertebrate animals, providing a specialised understanding of palaeontology, palaeoecology and vertebrate evolution.

Bachelor of Criminology

Build a career exploring the world of crime. There are many employment opportunities in the field of criminology, including intelligence analysis, community corrections, community development and child safety work.

This degree will prepare you for a career within a growing sector. You'll gain skills and knowledge in such areas as transnational crime, policing and security, organised crime, cybercrime, terrorism, corrections and corruption, and you'll gain a broad understanding of criminological theory and its applications in criminal justice contexts.

PATHWAYS TO STUDY

Whether you are a school leaver or returning to study at a later date, there are many ways to gain admission to Flinders University. Explore your options and find the entry path that's right for you.

If you have recent secondary education

Year 12 Entry

Most Year 12 applicants enter university via the traditional entry method, where offers are made to eligible applicants with the highest selection rank until all places in the degree are filled. Your selection rank is used by Flinders to assess your admission to a course and is based on your ATAR plus any adjustment factors for which you are eligible.

Elite Athlete Pathway

If you've officially represented your school or state at a national level competition, we'll consider your school's recommendation about your academic potential when you apply.

Research Project B Pathway

If you have strong results in the Research Project B subject you will be considered for entry into Flinders on the basis of your Year 12 results and Research Project B performance.

uniTEST

If you're in Year 12, uniTEST may enhance your chances of getting into Flinders. We will select students based on Year 12 results and uniTEST performance.

If you have some higher education

Tertiary Transfer

If you have completed at least one semester of full-time equivalent study at university, you may be able to transfer to study at Flinders University using your grade point average (GPA).

If you have vocational education and training (VET)

TAFELink

Flinders offers guaranteed entry to selected degrees for applicants who have completed a TAFE/VET certificate IV or higher-level qualification, as long as degree prerequisites are met.

TAFE SA Dual Offers

Flinders University together with TAFE SA offer over 45 dual offer pathways in various disciplines.

Adult Entry

The adult entry scheme enables people aged 18 years and over to apply to study at Flinders via the Special Tertiary Admissions Test (STAT). Applications are made via SATAC.

If you have work and life experience

Foundation Studies

The Foundation Studies program has been designed to introduce you to university study in a supportive learning environment. Open to people from all backgrounds, Foundation Studies provides a pathway to gain entry to most degrees at Flinders and offers guaranteed entry into some degrees.

Military Pathways

Use your military service in the Australian Defence Force as a pathway to a Flinders University degree.

Special Tertiary Admissions Test (STAT)

Adult entry to university via the Special Tertiary Admissions Test (STAT) assesses your ability to study at a tertiary level.

A pathway to all degrees

Bachelor of General Studies

Begin your journey to a successful career. Flinders' Bachelor of General Studies is a flexible degree designed to prepare you with communication skills, a firm grasp of ethics and the confidence to make connections across geographical, disciplinary, social and cultural boundaries.

19 July 2021

THIS IS FLINDERS

Flinders’ huge main campus features an award-winning hub and plaza, with retail, food outlets and a state-of-the-art sport and fitness centre. Take a virtual tour of Flinders University and explore our amazing locations. It’s the next best thing to being here! flinders.edu.au/vr

An underwater photograph of a shipwreck, likely the HMAS Sydney, viewed from above. The ship's deck is visible, covered in rust and marine growth. Various pieces of equipment, including large cylindrical tanks and mechanical components, are scattered across the deck. A diver is visible in the distance, providing a sense of scale to the large wreck. The water is a deep, dark blue.
